

Dear Prospective Resident & Family,

Thank you for your interest in living at Agrace, a peaceful, home-like setting where you can receive hospice care from a specially trained team that is accessible day and night.

The hospice services provided at our Residence and Memory Care Suites are equivalent to those Agrace provides in a patient's home or other private residence. Your care is provided by nurses and certified nursing assistants and overseen by a registered nurse and social worker.

To live at Agrace, you first must be enrolled in hospice care with us. You must also apply for admission to either the Agrace Residence or Memory Care Suites and receive clinical approval. This process evaluates whether we can safely meet your care needs, and if so, in which setting—Residence or Memory Care Suites. Finally, there must be a room available.

Residence and Hospice Memory Care Suites Application Process

If you have questions about this process, please ask your Agrace care team. If you do not have an assigned care team, ask your Agrace enrollment representative.

1. **Submit a Residence/Memory Care Suites Application** and agree to our policies (*attached*).
2. Agrace will review your application to make sure you qualify. While you live at the Residence or Memory Care Suites, your hospice care is covered by Medicare, Medicaid or private health insurance, or you can pay privately. In addition, there is a **residential services fee**, which includes your room, housekeeping, utilities and meals. The rate is \$415 per day. The residential services fee is *not* covered by health insurance—it is the financial responsibility of you and/or your family. A refundable \$4,000 security deposit may be required.
3. **Agrace will notify you when your application has been accepted.** You can tell your Agrace care team when you will be ready to move in.
4. **When you are ready to move and there is a room available**, we will review your medical record and current health status to determine which setting can best meet your needs. Then your Agrace care team will help coordinate a date and time for your move.
5. **Upon moving in**, you will sign a Residential Services Financial Agreement which will outline payments including any security deposit requirement.

Sincerely,

The Agrace Residence and Hospice Memory Care Suites Team

1. Eligibility Requirements

Agrace Hospice Care offers residential and residential memory care hospice services at the Agrace campus for hospice patients whose symptoms and day-to-day care needs can be primarily met by a nurse and a certified nursing assistant.

To qualify for and continue to receive hospice services, patients must remain medically eligible for hospice services, with a life expectancy of six months or less. Hospice eligibility is continually assessed by the patient's care team throughout their time as a hospice patient and resident at the Agrace campus.

If Agrace's Residence or Memory Care Suites staff determine that a patient is no longer medically eligible to receive hospice services, the patient will receive written notice to this effect. The care team will work with the patient/family to develop a discharge plan, and the patient/family will have up to 30 days to make new living arrangements. Charges for hospice services will stop when hospice eligibility ends. The patient will continue to be responsible for separate residential services (also called "room-and-board") fees, per the Residence/Memory Care Suites Financial Agreement signed at admission, until the last day of occupancy, at which time all Agrace services will end.

If, at any time, a patient's care needs exceed the level of services that can be provided by the Residence or Memory Care Suites staff, the patient may need to be transferred to another appropriate care setting or facility.

2. Residency Requirements

Tuberculosis (TB) screening is required prior to admission to the Residence/Memory Care Suites. If the results show active TB, effective medical treatment must be started before admission, and must continue until treatment is completed. TB results completed within the last 90 days before entry to the Residence/Memory Care Suites may be utilized.

With provider approval, patients may obtain passes to leave the Agrace campus with family or friends. The Residence or Memory Care Suites staff will obtain an order stating the patient's medical appropriateness to leave and identifying, as applicable, who will be with the patient during the leave.

Both the patient, if able, and the person who will accompany them must sign a "leave" form before leaving the Agrace campus. The form acknowledges an understanding of potential risks of the leave and that the person accompanying the patient is assuming responsibility for the patient while they are away from the Agrace campus.

Agrace can "hold" the room of a Residence/Memory Care Suites patient for up to two weeks if the patient needs to be offsite. Daily residential services fees still apply while a room is being held, except if the patient is transferred for short-term, acute care (General Inpatient (GIP) care) at the Agrace inpatient unit.

Patients with disruptive or inappropriate behavior that violates the rights of others, or jeopardizes their own safety or that of others, may be required to leave the Agrace campus.

3. Residential Services Fees, Security Deposit

- **Residential services fees** (also called "room-and-board payments") are due upon admission and on the 1st day of each subsequent month (or prior to a short-term stay).
- **Security deposit:** A refundable \$4,000 security deposit is due upon admission to the Residence/Memory Care Suites (this does not apply to short-term stays).
- Unless other arrangements have been made, patients who fail to pay by the 5th day after their fees are due may be asked to leave the Residence/Memory Care Suites within 14 days. Any damage to Agrace property by patients or their guests will be assessed and charged to the patient's account or deducted from the security deposit.

4. Refunds

If a refund is due, a check will be issued within three (3) weeks after the end of occupancy. Agrace must issue refunds to the person/account that made the payment, per our records.

5. Attending Physician

Residence/Memory Care Suites patients may choose to continue to receive primary medical services from their community attending physician. Alternatively, patients may choose not to have an attending physician.

An Agrace nurse collaborates with the designated attending physician based on patient and family goals related to the plan of care.

6. Medications

Patients and families are responsible for the cost of medications that are *not related* to the hospice diagnosis and medications that are *related* but are not on Agrace's formulary. Families may acquire non-related medications independently or with Agrace's assistance.

NOTE: For Medicare patients with Part D medication coverage, Medicare requires the patient's pharmacy to coordinate with Agrace and/or the patient's attending physician, if any, to identify which medications are:

1. related to the patient's terminal illness and covered (within the Agrace formulary process) under the hospice benefit,
2. unrelated and covered by the patient's Part D plan (subject to Part D pre-approval), and
3. determined to be no longer medically necessary—and if continued, would become the patient's financial responsibility.

Medications will be administered by Agrace, as ordered. Students (i.e., medical or nursing students) may administer medications under the supervision of their clinical instructor.

7. Visitors

Family members or guests may visit at any time—24 hours a day, 7 days a week—unless specifically limited by the patient or family, or by Agrace (for safety/infection prevention). Minors are welcome, but they must be supervised at all times by an adult other than the patient or Agrace staff.

Family members or guests may not change their legal residence to Agrace. Family members or guests with disruptive or inappropriate behavior which violates others' rights or jeopardizes safety will be asked to leave the Agrace campus.

If a pet visit is desired, an Agrace Animal Visit form must be completed and turned in to Agrace staff for approval before the animal comes to Agrace. An Animal Visit form can be obtained from any staff member.

8. Smoking, Alcohol and Firearms

The Agrace campus is smoke-free. The only exception is for patients—who are not in the Memory Care Suites—who are allowed to smoke on their patios if the Residence Team assesses that they are safe to do so independently. The Memory Care Suites are completely smoke-free, including for patients.

Alcohol may be consumed in moderation, as permitted by a provider, in patient rooms and designated areas within the building. Patients' alcohol is required to be stored in the Medication Room.

Possession of or use of weapons, illegal drugs and/or drug paraphernalia of any kind is not permitted on the Agrace campus. Failure to comply may result in immediate removal from the facility.

9. Personal Property

Patients may bring small items from home to personalize their living area. Personal pictures or wall art may be displayed on their room's picture rail. Items may not be affixed to the wall.

Bringing furniture is not permitted. For safety reasons, area rugs and throw rugs are not permitted.

Agrace will provide and maintain standard linens. Personal laundry and linens, such as quilts or bedspreads, must be labeled and can be washed by Agrace staff. Laundry requiring special care is the responsibility of the patient or family.

Patients living at the Residence/Memory Care Suites are responsible for their personal belongings and should not keep valuable belongings here. Agrace is not responsible for any lost or misplaced items.

After a patient's last day of occupancy, access to their room is limited to staff and responsible parties, as designated by the patient, for the purpose of packing and removing personal belongings. Barring exceptional circumstances, it is expected that belongings will be removed within 24 hours after a patient has died or has been discharged.

10. Personal Vehicle

Parking is available in the Agrace parking lot for patients who may be using their personal automobile. Please notify the Residence social worker if you need parking.

11. Hospice Memory Care Suites Locking System

The Hospice Memory Care Suites provide a living environment which is supportive for those with memory issues, such as dementia or Alzheimer's disease. The Suites feature doors with a controlled egress locking system, providing a safe and secure unit for those who are an elopement risk. These doors will be locked to prevent patients from wandering and are equipped with safety mechanisms to ensure they will open when needed.

By checking the box and signing below, I acknowledge that I have read and agree to the Agrace Hospice Care Residence and Memory Care Suites Policies.

Before a patient can be admitted to the Residence or Hospice Memory Care Suites at Agrace:

1. The applicant must be certified as eligible for hospice by their attending physician and an Agrace physician.
2. The applicant must be clinically approved by staff of the Residence or Memory Care Suites.
3. There must be a bed available. If one is not available, the applicant's name may be added to a waiting list.
4. Upon admission, the patient/family will pay the fees that pertain to their setting.
